MITSUBISHI

GLS with optional equipment / Red Diamond [P62]

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

GLS with optional equipment / Red Diamond [P62]

READY FOR ACTION

Bold lines. Flared fenders. A deeply sculpted wedge like an athlete perched to explode from the starting block. Onlookers are left behind to ponder its steeply raked rear window.

GLS with optional equipment / Black leather interior

EXHILARATION AT YOUR COMMAND

The sporty, meticulously crafted cockpit quickens your pulse and heightens your pleasure.

Every detail is designed to enhance your awareness and control. So driving feels intuitive with direct, linear response to every command.

Image of Head Up Display indication

Head Up Display [HUD]

The Head Up Display conveys vehicle information in full color above the meters for easy viewing. You can adjust image brightness and display height to suit your preference and time of day. The combiner extends or retracts when you turn the ignition.

GLS with optional equipment / Black leather interior

A REFRESHING EXPERIENCE FOR ALL

The joy of driving extends to every passenger in the spacious cabin, which is overflowing with quality materials and solid craftsmanship. Comfortable seats with supportive contours and plenty of legroom keep everyone feeling refreshed even on the longest of journeys.

Rear seat adjustment

The comfortable rear seats with 9-step reclining and 200mm sliding adjustment can be slid all the way back for class-leading legroom. Even then, there is plenty of storage space in back and the 60:40 split seatbacks can be individually lowered for more.

Slender side sills

The side sills are slender and protected from thrown up dirt by door garnishes while driving, so anyone can comfortably enter and exit the vehicle without rubbing their legs on the car and getting their clothes dirty.

Tailgate window

The rear view is clear through the double rear windows with minimal interference from the height-adjustable rear headrests, which are specially designed to stay low while providing comfortable head support.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

GLS with optional equipment / Bronze Metallic [C21]

RESPONSIVE ACCELERATION. MORE POWER FROM EVERY DROP OF FUEL.

1.5L direct-injection turbocharged gasoline engine

Downsized for efficiency and turbocharged for powerful torque at low-to-mid rpm, the newly developed engine puts instant acceleration at your command. This highly responsive performance was made possible by direct fuel injection, an exhaust manifold-integrated cylinder head, sodium-filled exhaust valves, MIVEC (Mitsubishi Innovative Valve timing Electronic Control system) and more.

Make all the right moves in relaxed comfort.

Handling is stable, intuitive and predictable. Where you point, the vehicle goes with unerring precision and poise thanks to a fine-tuned suspension, responsive steering and supreme body rigidity — reinforced by spot welding, structural adhesives and a standard strut tower bar over the engine. At the same time, all passengers enjoy an extremely comfortable ride on every road wherever you travel.

Structural adhesive bonding on doors and tailgate openings increases coupling rigidity between body parts. (Images are provided for illustrative purposes only.)

INVECS-III CVT

The advanced CVT supports smooth, powerful acceleration and outstanding fuel efficiency with new step shift control that creates the satisfying sensation of shifting gears.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

REASSURING ALL AROUND SAFETY

Advanced safety technology supports safer, more confident driving on the road and in parking lots, day and night. From intelligent sensors that track your surroundings and warn of danger to active driving assistance and solid passive protection, the ECLIPSE CROSS delivers all around high levels of safety.

Forward Collision Mitigation System [FCM]

Helps prevent a frontal collision or reduce damage if the collision becomes unavoidable. Responds to vehicles and pedestrians via camera and laser radar.

Lane Departure Warning [LDW]

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

Blind Spot Warning [BSW]

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. An indicator appears in the door mirror when BSW is active and the turn signals are off. When a vehicle is detected while the turn signal is on, an indicator blinks in the corresponding door mirror and a buzzer sounds.

Automatic High Beam [AHB]

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

Note:
FCM: The detection and control capabilities of Forward Collision Mitigation [FCM] are supplemental only and do not prevent collisions in every situation. Please drive safely and do not rely solely on this system while driving. FCM operates when a vehicle is in front of your vehicle. FCM is also designed to detect pedestrians, but may not detect them or be activated in some situations. Auto braking is activated for a car ahead when your vehicle is travelling at a speed of approx. 5km/h to 80km/h and for a pedestrian ahead at approx. 5km/h to 65km/h. Since FCM has no function to maintain braking, the brake is released approximately 2 seconds after stopping. To prevent the vehicle from rolling thereafter, the driver may have to hold the brake pedal down. In some cases, FCM may not function if the driver takes actions for accident avoidance through steering or acceleration operation. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

LDW: Lane Departure Warning is not designed to lessen risks associated with not looking ahead carefully (attention drawn to something on the side, absentmindedness, etc.) or poor visibility caused by bad weather, etc. It is designed to detect the lane at a speed of approx. 65km/h or more. Keep steering your vehicle correctly and drive safely. The system may not be able to detect the lane correctly in some conditions. Please see the owner's manual for additional information.

BSW: The detection and control capabilities of Blind Spot Warning [BSW] are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving. BSW may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

AHB: This system activates at a speed of approx. 40km/h or more and deactivates at lower speeds. Please see the owner's manual for additional information.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Rear Cross Traffic Alert [RCTA]

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detect an approaching vehicle nearby while reverse gear is engaged, a warning message appears in the Multi-information display, a buzzer sounds and an indicator blinks in both door mirrors.

Ultrasonic misacceleration Mitigation System [UMS]

To help prevent collisions while parking, a buzzer sounds and a warning displays if front or rear sensors detect a nearby obstacle. Engine output is also controlled if you suddenly accelerate by accident.

Engine output control activates:

- When driving at very low speeds (not in N or P position)
- When obstacle/vehicle is within a short distance
- When accelerator pedal is pushed hard or abruptly
- When driver is not turning to avoid obstacle/vehicle

Active Stability Control [ASC]

If wheels lose their grip on slippery surfaces or while turning, ASC automatically adjusts engine output and applies braking force at the appropriate wheels to help maintain control and prevent skidding.

Hill Start Assist [HSA]

When starting on a steep slope, HSA helps prevent you from rolling backwards while you release the brake by maintaining the braking force for up to two seconds until the accelerator is applied.

RISE body

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

7 SRS Airbags

Front airbags, side airbags, curtain airbags and a driver's knee airbag help protect you and your passengers in the event of a collision.

(Front airbags are standard. Side, curtain and driver's knee airbags are optional.)

Note:
RCTA: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving. The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

UMS: The detection and control capabilities of Ultrasonic misacceleration Mitigation System (UMS) are supplemental only and do not prevent misacceleration in every situation. Please drive safely and do not rely solely on this system while driving. To prevent the engine output control provided by UMS from causing an impediment during normal driving in rough-road driving conditions, the system automatically de-activates and indicates UMS OFF in the meter cluster when the FCM function is OFF or the ASC function is OFF. No function completely stops the vehicle via the automatic braking. The vehicle may creep forward or backward even when engine output is regulated. The sensing system may not work for netlike and sharp-edged obstructions that do not sufficiently reflect ultrasonic sound. UMS does not include a function which keeps the vehicle stationary. The driver is responsible for stopping the vehicle by pressing the brake pedal as required by the driving conditions. The ultrasonic sensor wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

ASC: The control capabilities of ASC are supplemental only. Please drive safely and never rely solely on these functions while driving. Be sure to use the same specified type and size of tires on all 4 wheels. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner's manual for additional information.

HSA: Hill Start Assist [HSA] is not a substitute for safe driving. Never rely solely on this function while driving on steep roads. Your vehicle may move backwards if the brake pedal is heavily loaded, or if the road is very steep or slippery. This function is not designed to keep the vehicle stopped in place on uphill slopes for more than 2 seconds. Do not rely on this function to maintain a stopped position as an alternative to depressing the brake pedal. Please see the owner's manual for additional information.

7 SRS Airbags: Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always fasten your seat belt, sit upright in the middle of the seat and do not lean against the door. Always place children 12 and under in the rear seat if possible and use appropriate child restraints. Please see the owner's manual and the instructions provided with your child restraint for additional information.

GLS with optional equipment / Titanium Gray Metallic [U17]

FEATURE HIGHLIGHTS

Power panoramic sunroof

The stylish twin sunroofs with outer sliding glass open up the atmosphere for the driver and all passengers. Each shade can be separately operated to let in refreshing sunlight.

Keyless Operation System [KOS]

When carrying the key, you can press a button on the outside of the front doors or tailgate to lock or unlock all the doors and tailgate, and press the engine switch in the cockpit to start or stop the engine.

Electric Parking Brake with Brake Auto Hold

Simply pull the switch up to apply the parking brake or push the switch down to release it. If Brake Auto Hold is active, the vehicle will remain stationary even if you release the brake pedal. Pressing the accelerator releases the brakes.

Cruise control

Vehicle speed is automatically maintained without keeping your foot on the accelerator pedal, allowing more relaxed driving on extended journeys. Pressing the brake pedal disengages the system.

Heated seat

The driver's and front passenger's seats provide heaters in the cushions and seatbacks that can be activated or deactivated from easy-to-access switches.

Rain sensor

The rain sensor activates the windshield wipers automatically when moisture is detected on the windshield.

Auto headlights

When your surroundings become dark, such as at night or when passing through a tunnel, the headlights automatically activate for your safety and convenience.

Tire Pressure Monitoring System [TPMS]

TPMS employs sensor-transmitters in the wheels to monitor tire pressure and illuminates a warning lamp on the combination meter cluster if one or more tires becomes significantly underinflated.

Color LCD Multi-information display

The large, 4.2-inch liquid crystal Multi-information display in the center of the meter panel is extremely easy to read. It keeps you clearly informed of various useful information on vehicle status, your trip, external temperatures and more.

Mitsubishi Multi Communication System (MMCS)

This central Wide VGA touch-screen makes navigation easy and keeps you clearly informed of ECO information such as energy consumption and driving range. It also displays the rear camera view whenever you reverse to lend a helping hand.

Wide VGA display

Presents information at high resolution for easy reading.

3D map view

Shows 3D polygon landmarks on city maps.

Sound quality control

Supports easy adjustment of various sound control functions.

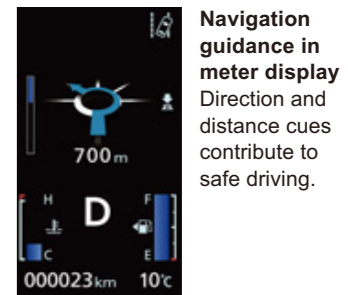

ECO function information

Your ECO score and other information from ECO functions are displayed.

Split display

Simultaneously displays map information, audio information, etc. on the same screen.

Navigation guidance in meter display

Direction and distance cues contribute to safe driving.

Note: The information displayed varies according to the engine type.

Some functions may not be available depending on the smartphone or music player model. Please consult your local Mitsubishi Motors dealer/distributor for details.

Rockford Fosgate® premium sound system

Savor the stunning sound quality of a new audio system jointly developed with the Rockford Corporation. Nine speakers surround you with spectacular DTS Neural Surround™ sound.

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries. DTS Neural Surround™ is a trademark of DTS, Inc.

USB port

The port is conveniently located near the shift lever, allowing easy access from both front seats.

EQUIPMENT LEVEL

GLX

Bronze Metallic (C21)

Equipment level

- 215/70R16 tires and 16" x 6.5J alloy wheels
- Anti-lock Brake System [ABS] with Electronic Brake-force Distribution [EBD]
- Active Stability Control [ASC] with Hill Start Assist [HSA] and Brake Assist
- Front grille (silver) and front bumper center (black)
- Side door garnish (black)
- Door mirrors with side turn lamp (color-keyed)
- Shark-fin antenna
- Roof spoiler
- Driver's and front passenger's SRS airbags
- Lower anchor and tether anchor for ISO-FIX child seat (for rear seats) x 2
- Steering wheel (3 spoke type) and Gearshift knob
- Rear seat sliding and reclining function
- Rear seat back folding function (60:40 split type)
- Remote keyless entry (transmitter x 2)
- Automatic climate control air conditioning

Optional shown:

- Front skid plate (silver)
- Side window molding (chrome)
- Rear skid plate (silver)
- Tailgate garnish (chrome)
- Rear mud guards
- Steering switch (audio control)
- Steering switch (hands-free and voice control)
- Removable ashtray and cigarette lighter
- Tonneau cover
- Wide 2DIN audio with 4 speakers, AM/FM radio, CD/MP3 player, USB port (Front console)
- Bluetooth® hands-free system with voice control

Note: The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by MITSUBISHI MOTORS CORPORATION is under license.
For a complete list of standard and optional equipment, please refer to pages 21 and 22.

EQUIPMENT LEVEL

GLS

Red Diamond (P62)

Equipment level (in addition to GLX)

- 225/55R18 tires and 18" x 7.0J alloy wheels machine finished 2-tone
- Front grille (silver and chrome) and front bumper center (gloss black)
- Electric Parking Brake with Brake Auto Hold (CVT models only)
- Rear center armrest with drink holder x 2
- Inner door handles (chrome)
- Driver's and passenger's sunvisors with vanity mirrors, lids, ticket holders and illuminations
- Floor console box with large armrest (synthetic leather)
- LED Daytime Running Lamps [DRL]
- Front fog lamps

Optional shown:

- Side door garnish (silver)
- Door mirrors with power folding function
- Roof rails (black)
- Power panoramic sunroof
- Side SRS airbags, curtain SRS airbags & driver's knee SRS airbag
- Forward Collision Mitigation system [FCM]
- Lane Departure Warning [LDW]
- Blind Spot Warning [BSW] with Lane Change Assist [LCA]
- Ultrasonic misacceleration Mitigation System [UMS]
- Rear Cross Traffic Alert [RCTA]
- Leather-wrapped steering wheel (3 spoke type) with piano black and chrome accent and Gearshift knob
- Paddle shifters (CVT models only)
- Cruise control (including steering wheel remote control switches)
- Seat material (leather with stitches, power adjustable driver's seat and seatback pocket)
- Front seat heaters

- Keyless Operation System [KOS] with engine switch (transmitter x 2)
- Head Up Display [HUD] (combiner type)
- Dual-zone automatic climate control air conditioning
- Navigation system (MMCS) with Rockford Fosgate® 710W premium sound system, 9 speakers, AM/FM radio, CD/MP3 player, USB port (Front console) and Rear view monitor
- LED headlights (high/low beam) with auto leveling
- Auto on/off headlights
- Automatic High Beam [AHB]
- Headlight washers
- Rain-sensing windshield wipers
